

Part 1:

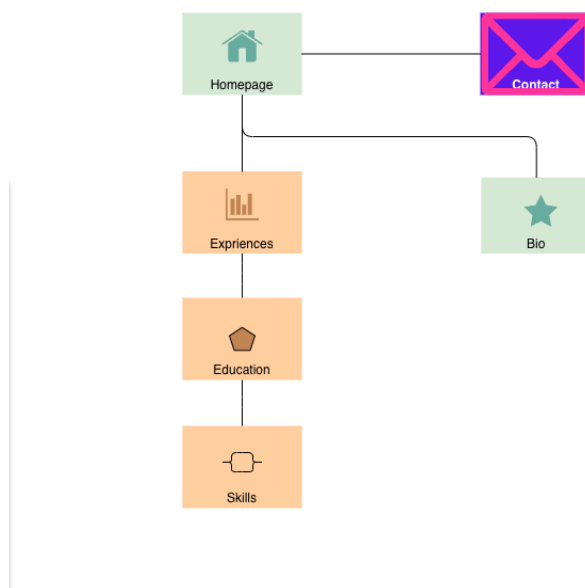

○ Your website purpose summary

The purpose of the website is for my portfolio, to show case some of my background and experiences.

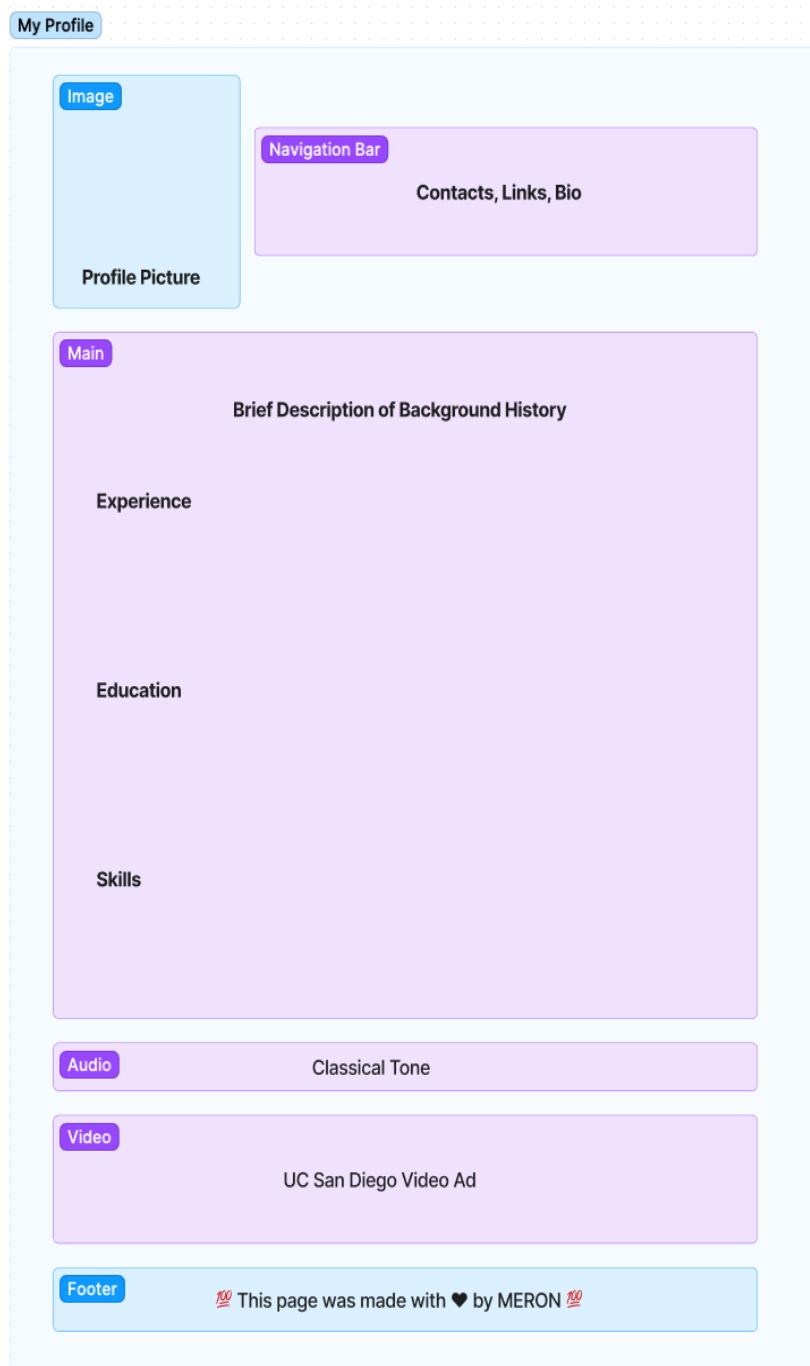

○ Persona Diagram(s)

○ Your site diagram

- Your site wireframe

- **Technical Requirements**

What I plan on doing in implementation is to show a glance of my various skills as Computer Engineer.

The site will be hosted in Netlify and GitHub.

The technical requirements might include things like internet, webDev tools, designing platforms, the targeted browsers currently are Chrome, Firefox, and Safari profiles. The page delivery targets is 5-10 MB.

- **Content Requirements**

The types of content I will need to gather or write are the following; work history/resume, educational history/schools, profile image, videos of companies I worked for and the university I graduated from, and some miscellaneous useful for the website.

- **W3C Validation**

 **The W3C CSS Validation Service**
W3C CSS Validator results for https://adulisl.github.io/cse134-hw2/ (CSS level 3 + SVG)

Jump to: Validated CSS

W3C CSS Validator results for https://adulisl.github.io/cse134-hw2/ (CSS level 3 + SVG)

Congratulations! No Error Found.

This document validates as [CSS level 3 + SVG](#) !

To show your readers that you've taken the care to create an interoperable Web page, you may display this icon on any page that validates. Here is the XHTML you could use to add this icon to your Web page:

```
<p>  
<a href="https://jigsaw.w3.org/css-validator/check/referer">  
    
</a>  
</p>
```

```
<p>  
<a href="https://jigsaw.w3.org/css-validator/check/referer">  
    
</a>  
</p>
```

(close the img tag with > instead of /> if using HTML <= 4.01)
